

HAAST

WORLD HERITAGE

UNTAMED NATURAL WILDERNESS

The Haast region covers over 2500 square kilometres of one of the world's most diverse and spectacular landscapes. In 1990 this area was internationally recognised as a location of significant natural value and became the centrepiece of Te Wāhipounamu – **The South West New Zealand** World Heritage Area.

Haast is the perfect destination to explore some of New Zealand's most unique scenery and marine wildlife. It's also the seasonal home to Fiordland Crested Penguins. The rainforest, rivers and sea are here for you to experience and enjoy. A wide range of accommodation, eateries, services and activities are available in
