

Our Sustainability Mission

Haast River Motels & Holiday Park is proud to be green.

At Haast River we are working towards a better future for our children through sustainability endeavours. We have committed to initiatives to create a 'greener' future.

Chemical Use

- Use of eco-friendly cleaning products in our units
- Use of eco-friendly pesticides where-ever possible
- Laundry powder, fabric softeners, shampoos, & soaps are in pump dispensers to minimise waste.

Community

- We are involved several community initiatives including saving the Haast Kiwi & Wildlife
- Our staff engage in beach clean-ups and tree planting.
- Where possible we use local manufacturers and suppliers
- Donations for school fundraising purposes

Conservation

- Bio-degradable rubbish bags
- Fresh water filling station to refill all drinking bottles.

Gas & Energy

- Motion sensor controls in our BBQ & Communal area
- Infinity hot water systems using Natural Gas
- Low energy bulbs (where possible)
- Motion sensor lighting in communal areas
- Park lighting is light sensor controlled.
- All computers turned off at night.
- Office & Lounge lights on independent switches

Staff

- Sustainability information is given to all staff members
- Sustainability is a part of our staff induction process

Waste Management

- Recycling bays throughout the park
- Recycling bins in all units
- Reminders to guests about recycling
- Use of recycled products where possible
- Printer cartridges recycled.
- Green waste separated.
- All food waste is collected and feed to our chickens and pigs.
- Double-sided printing and reuse of single sided paper for office notepads

Water and Plants

- Garden planting, we have started re-plant as many native plants as possible to attract the beautiful Haast bird life
- Low flow taps fittings have been installed in our units.
- Dual flush toilet systems are in place.
- Guests are encouraged to reuse towels rather than having them changed every day (this is our guests' personal choice)
